Her best previous eastward record, made July 3 last, was 6 days 22 hours and 5 minutes. The best eastward record is held by the Fuerst Bismarck.

At all of the most important points there were floral or other arches and bunting displayed on all sides.

ASSESSMENTS TOO LOW.

Indiana's State Board of Equalization to Act.

Indianapolis, Ind., Aug. 15.—Comparisons of the real estate assessments in the several counties in the state have convinced the state board of equalization that many of the counties, taking advantage of the recent depression, have reduced their assessments too much, and it was decided to raise assessments in fifty of the ninety-two counties in the state. The assessments will be increased from 10 to 35 per cent, thus restoring the valuations of 1891. Some counties under the last assessment have increased their valuation over \$1,000,000, while others have reduced theirs more than that amount.

Three Men Drowned.

Middleton, N. Y., Aug. 15.—A triple tragedy occurred at Highland Lake, near Eldred, Sullivan county, on Monday night. William Taeterow, brother-in-law of Proprietor Devenoge, of the Mountain House, with W. Pilgrim, and another man whose name is unknown, was rowing on the lake in company with two other men. The boat was capsized and the two strangers swam ashore. The other three were left struggling in the water. They were unable to reach the shore. The water is said to be 100 feet deep at this place and all efforts to recover the bodies have proved fruitless.

Desperate Attempt to Murder.

Chicago, Aug. 15.—Frank Sweet yesterday shot Mrs. Alice Burr and Mrs. Nichols and then put two bullets into his own brain, killing himself instantly. Mrs. Burr was fatally injured, it is thought, while Mrs. Nichols received only a flesh wound. Sweet was infatuated with Mrs. Burr, and had attempted to separate her from her husband.

Hayward Breaking Down.

Minneapolis, Minn., Aug. 15.—The county authorities are becoming afraid that nature will step in and prevent the hanging of Harry Hayward, the gang murderer. Hayward's system shows unmistakable signs of breaking up, and he is not at all well. The doctors have ordered him placed in larger quarters.

Japan's Cabinet Crisis.

Tokio, Aug. 15.—By imperial command Count Ito, the prime minister, has resumed his duties. He accepts an elevation to the title of marquis offered him by the emperor. A rupture is thus averted, but the personal relations of certain members of the cabinet are greatly strained.

FREE SILVER CONFERENCE.

First Day's Session of White Metal Democrats Does Little.

Washington, Aug. 15.—One hundred men, representing nineteen states, composed the conference of free silver democrats here yesterday. There are no New England states represented, nor is there anyone from New York, Pennsylvania, Iowa, Michigan, Wisconsin, Minnesota, Nebraska, or Kansas. Missouri, however, is well represented and there are thirteen delegates from Illinois. At the afternoon session the committee on program and platform reported through Senator Daniel that it was unable to report, whereupon the conference decided to adjourn until today at 10 a. m.

It is generally understood that the report when made will recommend the issuance of an address to the democratic party of the country urging in very strong terms the maintenance of the silver cause in the democratic ranks, and also outline a plan for the organization of the silver forces in the party with a view to the selection of delegates to the next national convention. This plan will probably embrace the appointment of a central committee with a member from each state and territory, who shall in turn select a member from every county, the latter to have the power to appoint a member from every voting precinct in his county. The plan includes a provision for a national headquarters, probably at Washington.

The report will recommend the appointment of a committee to consist of Senators Harris, Turpie and Jones of Arkansas, and others who signed the call for the present conference, who are to select a provisional national committee to consist of one member from each state, whose duties are to be similar in scope and authority to those of the national committees of the republican and democratic parties. The present understanding is that no other subject but that of finance will be embodied in the address.

SUPREME COURT WILL DECIDE.

The Police Board Muddle in Omaha Rapidly Clearing Up.

Omaha, Neb., Aug. 15.—After an animated discussion, the old fire and police commission refusing any compromise except on the basis of permitting the Supreme Court to pass on the situation, the new commission consented and it was agreed that the old commission should continue to conduct the offices of the city until a decision was rendered on the case by the Supreme Court. This is considered a definite settlement of the case.

Window Glass Men Combine.

Anderson, Ind., Aug. 15.—At a meeting of manufacturers yesterday supplementary to the state meeting of Tuesday the final arrangement was made for the reorganization of the Indiana window glass trust which was organized with the twelve companies two months ago, and in that time, controlling 350,000 of the 380,000 boxes, has raised the price of glass over the nation 25 per cent. By the arrangement every one of the plants in the state, which are practically all west of Pittsburg, were taken in. This makes the combination solid and able to control the market in the future. The volume of business it will do is about \$5,000,000 annually. The manufacturers will have headquarters at Muncie and will meet in that city on Tuesday to re-elect officers.

Sensation in the Durrant Case.

San Francisco, Cal., Aug. 15.—Mrs. Durrant, mother of the young man who is accused of murdering Minnie Williams and Blanche Lamont, was approached recently by a mysterious woman whose desire was to sell something of extreme importance to the safety of Theodore Durrant. It was intimated that at least three of the jurors already accepted could be influenced to vote for an acquittal. Mrs. Durrant not only spurned the offer but informed the attorneys for her son and also notified the police of the nature of the offer made to her.

Again to Run Against Tom Watson.

Crawfordsville, Ga., Aug. 15.—The Democratic convention of the Tenth Congressional District yesterday re-nominated J. C. C. Black for Congress by acclamation. Speed of Fred Titus.

New York, Aug. 15.—The most notable achievement of the day at the Manhattan Beach cycling events yesterday was the smashing of the ten-mile record by Fred J. Titus in a match race with Harry Maddox, holder of the previous record at 21:30 3-5. He finished by knocking the record down to 20:53 4-5, a cut of 40 4-5 seconds.

New York, Aug. 15.—Ex-Postoffice Inspector L. A. Newcomb is authority for the remarkable story of a plan to rob one of the largest banks in this city. According to Inspector Newcomb, Lillian Vincent, better known as the Countess of Savoy, succeeded in getting into the good graces of a Mr. Vincent, who held a responsible position at the bank and was related to the president. An elopement was planned and the bank was to be robbed of \$200,000, but the scheme was frustrated by Inspector Newcomb, who secured a confession from confederates. Before arrests could be made all the persons implicated succeeded in making their escape.

Portland, Oregon, Aug. 15.—Napoleon Davis, secretary of the democratic state central committee, has received twenty-seven responses to a letter addressed to each of the thirty-two members of the committee requesting their views on the proposition to have the democratic party of Oregon take some official action regarding silver. Fourteen of the writers express the belief that the voters in their counties favor free coinage, while twelve are just as certain that the sentiment of their constituents is against free silver.

Sue Chowtaws for \$200,000.

Washington, Aug. 15.—James Coleman, attorney for the heirs of Albert Pike, of Arkansas, has filed in the court of claims a claim for \$200,000 against the Choctaw nation of Indians. Albert Pike for many years was the attorney for the Choctaw nation and his suit is on account of services rendered in successfully pushing claims of the Choctaws against the United States, in one of which \$2,858,798 was allowed the Indians.

Tennessee Town Destroyed.

Chattanooga, Tenn., Aug. 15.—The entire business part of Pikeville was destroyed by fire last night. Only one store is left standing. The conflagration is supposed to be of incendiary origin. The total loss is \$33,400, with only \$600 of insurance. The hotel was destroyed and the courthouse was saved only by strong efforts. One man was overcome while fighting the fire.

DIVERS STRUNG UP BY A FULTON MOB

NEGRO HAD MURDERED A FARMER'S WIFE.

Came to the Home of J. W. Cain, Outraged a Defenseless Woman and Killed Her—Caught in St. Louis After Two Days' Pursuit—Lynchers Ready.

Fulton, Mo., Aug. 15.—Emmett Divers, colored, was hanged by a mob at 1 o'clock this morning. He ravished and murdered Mrs. J. W. Cain, a farmer's wife, and a mob had been hunting him for two days. He was captured in St. Louis and brought here yesterday.

Chattanooga, Tenn., Aug. 15.—George Gather, the negro who outraged the young daughter of H. M. Rex of Harriman, Tenn., and was caught in Atlanta, was returned to Chattanooga last night for transfer to Harriman, the scene of the crime. A detective left here with the prisoner on the early evening train, and word was received at 11 o'clock that he arrived safely within three miles of the city and was met at the train by the sheriff, who took charge of the prisoner. Excitement is at fever heat and a lynching is sure, as it is rumored that a posse is on the way to jail to take Gather out.

PROPERTY IS SOLD.

Whisky Trust Distilleries Disposed of Under the Hammer.

Chicago, Aug. 15.—Receiver McNulta, of the whisky trust, yesterday accepted the bid of \$9,800,000 of the reorganization committee for the seventeen distilleries and their appointments owned by the trust, and thereby consummated one of the biggest transfers of property that has ever been made at auction in this country. Financial men declare that this sale, involving nearly \$10,000,000, marks the largest delivery of an industrial plant ever made. The amount obtained was exactly the sum named in legal proceedings as the upset price offered by the reorganization committee previous to the efforts of interests said to be identical with those of ex-President Greenhut and ex-Director Morris to enjoin the sale to the reorganization committee on the complaint that the latter contemplated nothing less than the rehabilitation of the old trust.

TAYLOR IS SENTENCED.

Ex-Treasurer of South Dakota Gets Five Years at Hard Labor.

Pierre, S. D., Aug. 15.—The court room was crowded yesterday to hear sentence pronounced on W. W. Taylor, the defaulting ex-State Treasurer. When asked if he had anything to say why sentence should not be pronounced on him Taylor in a low voice replied: "I have not." Judge Gaffy then reviewed the case and the different statutes bearing upon the crime. He considered the much-discussed section 1,665 void, and did not believe a two-year sentence was intended to cover such a case as this. He said that Taylor's worst crime was in attempting to force a compromise after gathering together all the state funds he could lay his hands on. A sentence of five years at hard labor was then pronounced.

Indians Cling to Their Land.

Perry, Ok., Aug. 15.—The Dawes commission made a partial settlement with the Kickapoo Indians last spring for an allotment and an annuity with the government for their lands, which lie in the southeastern part of Oklahoma Territory. Of the 275 Kickapoo 175 favored the allotment and 100 did not. The 100 who opposed the opening declare their lands have been taken from them by force. They have built a village on a stretch of land and declare they will not vacate. The governor says he will ask the United States army to eject these Indians from this school land.

Boy Murders His Mistress.

Atlanta, Ga., Aug. 15.—Maggie Donahue, an inmate of a disreputable house kept by her mother, Angela Cochran, is the victim of the murderous jealousy of John Carroll. The infatuated man emptied his revolver into her breast and abdomen and left her for dead in her mother's arms. Carroll, who is little more than a boy in years, seven years younger than the woman, was desperately infatuated with her. For months he had besought her to marry him, but she refused. Carroll was arrested and locked up. He declares the shooting was accidental.

Big Strike on in New York.

New York, Aug. 15.—Fourteen thousand jacket and pants makers went on a strike yesterday. Besides these, 1,700 other workers, classed as unskilled, are thrown out of work. The jacket workers demand a new "fifty-nine-hour-a-week agreement," and a wage scale of from \$6 to \$16 per week, according to the work done. By noon fully 9,000 tailors had quit work. The coatmakers and shirtmakers will probably go out in the course of a week or two, and swell the number of strikers to fully 20,000.

Syndicate Deposits Gold.

New York, Aug. 15.—The bond syndicate yesterday deposited at the United States treasury \$1,658,000 in gold in exchange for legal tenders, and later in the day \$1,150,000 in gold was withdrawn for export to Europe. This left the gold reserve at the close of business \$102,431,061. This second deposit by the syndicate confirms the officials in the belief that it fully intends to see to it that the \$100,000,000 gold reserve is not invaded.

Will Not Return to Work.

Ishpeming, Mich., Aug. 15.—At the meeting of the strikers here resolutions setting forth the determination of the men to remain out until the union is recognized, notwithstanding the advance in wages promised by the companies, were adopted.

CUBA TO FORM A REPUBLIC.

Insurgents Hope to Establish Their Rights as Belligerents.

New York, Aug. 15.—Unusual activity prevails among the leaders of the Cuban revolutionary party in this city as a result of the formation of the provisional government of the Republic of Cuba in Camaguey. The delegate of the revolutionists in the United States, Senor Thomas Estrada Palma, who has heretofore resided at Pleasant Valley, N. Y., has removed to the city and has taken offices at No. 66 Broadway, adjoining those of Gonzalo de Quesada, the secretary of the revolutionary party in this country. Senor Palma is at his office daily, and conferences with other leaders of the movement in this city are frequent.

It is said that the provisional government's first step will be to accredit commissioners to the various governments who will ask formal recognition for the Republic of Cuba, in order that the republic's status as a belligerent may be determined. The commissioner to the government of the United States will be Dr. Joaquin Castillo, a Cuban, who was educated in this country, and who served as an officer in the United States navy. Dr. Castillo served with distinction as a member of the Greely relief expedition in the arctic. He will arrive in this country shortly to lay the petition of the Cuban belligerents before President Cleveland.

With the recognition of their rights as belligerents, the Cubans will immediately purchase war ships in this country and extend to the ocean the warfare they have so successfully conducted on land.

The Ward Line steamer City of Washington arrived yesterday from Havana. She had few Cuban passengers and none was identified as of importance. The officers said that all was quiet in Havana when the Washington sailed last Saturday. News of the insurrection was more difficult to obtain in the Cuban capital than in New York. The attitude of the Spanish seems to be passive just at present, the military waiting upon the approach of cool weather before undertaking a vigorous campaign.

CALLED UPON TO SPY.

Capt. Gen. Campos Wants to Get Information.

Havana, Aug. 15.—Captain General Martinez de Campos has issued an order, addressed chiefly to the rural authorities, instructing them that they should advise the military authorities the moment an insurgent band appeared in their respective districts and if possible name the leader of the band. Persons who have joined the insurgents and who have subsequently returned home without surrendering to the authorities are notified to do so and those who fail to comply with this order are to be tried by court-martial.

Lieutenant Solana, at the head of a detachment of forty men belonging to the squadron of commerce of Havana, has been engaged with the insurgents commanded by Bermudez and Valdes at Cierrecita, in the Remedios district, province of Santa Clara. The lieutenant captured four prisoners and twenty saddled horses laden with provisions intended for the insurgents.

Insurgents to the number of 400 have attacked Port Ramblazo, which is under construction on the railway to Puerto Principe. A garrison, consisting of one sergeant, one corporal, and seventeen guerrillas, made a heroic defense, until Captain Mercado, with forty-five infantry and twenty guerrillas, arrived to relieve them. He forced the insurgents to retire, leaving behind them two dead and their firearms and machetes. The troops lost four dead and twelve wounded.

FOR THE NEXT CAMPAIGN.

Executive Committee of the National Republican League Meets.

Chicago, Aug. 15.—The executive committee of the Republican league met yesterday and considered plans for the next presidential campaign. They propose to enter vigorously into the campaign of organizations and political education, and, being the first in the field, they expect that important results will follow.

It was decided, after considerable discussion, to organize in the different states after the plan of organization adopted in Iowa. That state, the delegates say, has a perfect organization, and the "Iowa plan" will be carried out. It was decided to thoroughly reorganize the league in Arizona and General McAlpine of New York, chairman of the meeting, subscribed \$500 to defray the expenses of the reorganization, when it was announced that no money was in hand for the reorganization purpose. All but thirteen states were represented, the majority of those being in the south.

Azote Defeats Fantasy.

Buffalo, N. Y., Aug. 15.—The chief interest yesterday centered in the race between Salisbury's plow horse, Azote, and Hamblin's young mare, Fantasy. Azote had the pole and a length the best of it at the send-off, on the back stretch Fantasy drew up on even terms, but Azote drew away again in the stretch and won as he pleased in a walk. Fantasy broke at the first turn in the second heat, but Azote waited for her on the back stretch, and they came into the home stretch on even terms. The mare had not the speed in her, however, and Azote came away, winning easily. Best time, 2:19 3/4.

Three Thousand Deaths.

Yokohama, Aug. 15.—Many additional disasters caused by the storm of July 25 are reported from the south and west of Japan. One thousand fishermen of the single province of Satsuma are known to have been drowned. Three steamships were driven ashore and few of their passengers and crews escaped. Railway accidents have been numerous in consequence of the heavy floods, and several villages on the seaboard have been literally destroyed. The list of deaths as stated by authorities will exceed 3,000.

CITY FATHERS VOTE TO ALTER THE PLAN

UNIFORM CHARTER ORDINANCE ADOPTED LAST NIGHT.

A Copy of the Ordinance With the Section of the Law to Which It Refers to Be Published in All the City Papers—Final Action to Be Taken September 9.

It was for the special purpose of passing the ordinance allowing the city to adopt portions of the uniform charter that the common council met in adjourned session last night and but little other business was transacted. Alderman Burnham, who introduced the ordinance, also introduced an order providing for its publication, according to law and suggested that it be printed in all the daily papers together with the sections of the law referred to and notice that final action would be taken on September 9, in order that the people might better understand it. The document was as follows:

"An ordinance to adopt certain parts of Chapter 326 of the laws of 1889, entitled, 'an act dividing cities into classes, and providing for their incorporation and government,' as amended by the laws of 1893 and 1895, in addition to certain provisions of the special charter of the city of Janesville, and in lieu of certain other provisions of said special charter, and to declare the city of Janesville to be a city of the third class."

Section 1 of the ordinance declares the city of Janesville to be a city of the third class.

Section 2 provides for a comptroller and a board of public works.

The Treasury Clause.

Section 4 provides that if the treasurer or any person or persons connected with him in the collecting, safe keeping and disbursing of said city or ward funds, or either of them shall convert to his or their own use, in any way whatever, or shall be used by way of investment in any kind of property or merchandise, or shall loan with or without interest any portion of the city or ward funds entrusted to him or them for safe keeping, disbursement, payment, transfer or for any other purpose, every such act shall be deemed and adjudged to be an embezzlement of so much of said moneys as shall be taken, converted, used or loaned, which is hereby declared an embezzlement within the meaning of Section 4128 of Chapter 182 of the revised statutes of 1878; and every officer or agent of said city and all persons advising or participating in such act, or being a party thereto, shall, upon conviction before a court of complete jurisdiction in this state, be punished as provided in Section 4118 of Chapter 182 of the revised statutes of 1878.

Sec. 5 provides for the building and maintaining of sewers.

Other Sections Favored.

Mayor Babes, in calling the council to order, said that he hoped that the aldermen would all study the uniform charter carefully, as he thought there were other chapters that should be adopted in addition to those under consideration.

Alderman Winslow, of the Third ward, presented a petition signed by all the property owners on that portion of Wisconsin street lying between Court and Milwaukee streets, asking that the width of the driveway be limited to and fixed at twenty-six feet, and that the sidewalks be located next to such driveways. The petition was referred to the highway and bridge committee, who afterward reported favorably, and the council voted to grant the prayer.

M. & St. P. roads will sell excursion tickets from all stations within one hundred miles for a fare and a third during the state circuit bicycle meeting, August 28 and 30 the tickets to be good for return until Aug. 31, Vice President Orin Sutherland being so notified today.

PRAIRIE CHICKENS ARE SCARCE

Rock County Shelters But Few Covies, Despite a Very Favorable Season. In spite of the favorable season prairie chickens are scarce in Rock county this year, and but very few birds have been seen. The advance of civilization has driven the birds further west, and only a few single birds can be found in Rock county fields. Covies are a thing of the past, and even the single birds are so wild that it is difficult to get a shot at them. A few

ALICE DIRECTOR WINS HER RACE

H. D. McKinney's Good Pacer Defeats the 2:18 Class Field at Milwaukee.

H. D. McKinney's pacer, Alice Director won the 2:18 class purse for that gait at Milwaukee yesterday. Alice had been picked as a winner and had a walk away in the two first heats. In the third heat she broke before she reached the first turn and it looked as though she would be distanced. She recovered, and, out-footing the others in the race, McKinney brought her in ahead of the three-quarters. Here she again broke, but, recovering quickly, came down the homestretch at a terrific pace. At the distance flag she caught the leader and came in a winner by half a length. The best time was 2:17.

In the Futurity stake, Mr. McKinney's colt Phallic, was the only one that had paid up, and had a walk over. The stake was worth \$300.

Robbie P., won the free-for-all trotters, defeating Major, Selina F. and Maud Wright, the best time being 2:12.

Miss Williams won the free-for-all pacing purse at Henry, Ill., yesterday, defeating Rocker, Wheeler F. and others, the best time being 2:11. Miss Williams was the fleet young lady who jarred the Janesville bettors by defeating Sir Edwin Arnold and a dozen others in the 2:15 pacing class. His best time here was 2:10.

PAY FOR CARRYING WHEELS.

What It Will Cost To Transport Bicycles on Railway Trains.

New rules went into effect today and bicyclers who travel on the Milwaukee and St. Paul must pay for their wheels.

The charges are made at excess baggage rates. If the wheelman's ticket cost him less than \$5 the sum of 25 cents is charged for carrying his bicycle; 50 cents if the ticket costs \$5; 75 cents if the ticket costs \$11 or \$12 and \$1.50 if the ticket costs \$25. At these rates it will cost wheelmen \$5 to take their bicycles to California.

The bicycle tariff will be charged also for tricycles and baby carriages and none of these vehicles will be carried any distance for less than 25 cents. The new tariff is the result of the enormous increase in the number of bicycles in use, and the agreement to use the tariff is signed by the Northern Pacific, St. Paul and Duluth, Minneapolis and St. Louis, Chicago, Milwaukee and St. Paul, Great Northern, Chicago, St. Paul, Minneapolis and Omaha, the Soo, Oregon Railway and Navigation company and Washington and Columbia River company. The Northwestern has been charging for bicycles for some time.

Ferris Comedians Drew Crowds.

Green Bay papers say that the standing room card was displayed at the Ferris Comedians' performance. "The enthusiasm the audience showed over Greased Lightning was evidence that everyone was delighted," says the Green Bay Gazette. "The Klaus had not held as big a crowd for years. Every available seat was taken and money paid to stand up. Encore after encore was the order of the evening and each and every member of the company were brought before the audience many times. Its a 50-cent show for 10 cents."

HOW STATE CROPS ARE FARING.

MILLET shows a heavy growth since the rain and will go far toward helping out the short hay crop.

POTATOES are growing finely and the prospects are favorable for the largest yield in years.

RAINS have delayed the threshers and in many cases the stacked grain is heating badly.

ONLY La Fayette, Green and Iowa counties have suffered from lack of rain this week.

SOME tobacco has been cut but the crop is still growing and looks exceptionally fine.

BUCKWHEAT is a remarkably fine crop and an unusually large acreage has been sown.

PASTURES are considerably improved, increasing the milk supply.

BARLEY is proving one of the best crops of the season.

CORN is in the roasting ear stage.

Here They Are.

One second hand steel range, coal and wood.

One second hand Badger range.

One second hand gas stove.

NOT A SICK SOLDIER IN THE COMPANY

LIGHT INFANTRY BOYS HAVING GOOD LUCK.

Captain Glass Serves As Officer of the Day—Gage, Root, Cook and Hanson Lead On the Rifle Range—Janesville Girls Are Expected.

Camp Douglas, April 15.—No member of the company has been under the surgeon's care, but several have been unable to drill. Last night was a jolly one for the boys and the fun kept up until "taps" sounded, and all rushed to their tents and were fast asleep until the inspecting officer came around. Then rag-chewing was indulged in to a late hour. Yesterday was the hardest one for work, but General King said the regiment had gained 50 per cent over Tuesday.

The weather so far has been excellent; no rain but a friendly breeze blowing most of the time. The evenings have been unusually warm but very comfortable.

The detail for today is:

Officer of the Day—Capt. Glass, Co. A.

Officer of the Guard—Lieutenant Johnson Co. E.

Corporal of the Guard—E. Wright Co. A.

Guard—Privates Wray, Hodge and Heise of Co. A.

Sergeant Nelthorpe and Private Engelbreton visited the Dells today.

Mrs. Captain Conley of Darlington has arrived in camp.

Several Janesville girls are expected to visit us and the boys are putting in their best looks to prepare for them.

The regular's band discourse some very fine music and every night concerts by them and our band are held in the pavilion.

Regulars May Go West.

The regulars here, the Third regiment, have received unofficial information to the effect that the regiment will be relieved from duty at Fort Snelling during the latter part of September and sent to New Mexico and Arizona, to take the place of the Twenty-fourth infantry. It is needless to say that the men are considerably agitated over the report. The Third was recruited largely in the northwest, and the prospect of being separated such a distance from home and loved ones is not a pleasant one.

Highest scores in Company A:

	Fixed Skir.	To-Dis.	tal.
Private Gage	131	65	197
Private Root	123	49	172
Private Cook	110	42	152
Lieutenant Hanson	111	38	149

Lieutenant Rooney failed to qualify in the preliminary shoot and was compelled to go into the baby class.

Colonel Graham had the best marksmanship of the regiment out yesterday afternoon, shooting at the movable target. Each man had two shots, one at the running and one at the walking figure. There were seventeen hits made. Gage, of Company A, Janesville, made two hits. Colonel Graham offers a prize to the one who makes two hits, one of which is the head.

Captain Gibson made but one skirmish run making 88 in that time.

Visitors have begun pouring into camp and today will see the largest gathering of the week.

BINGHAM'S MEDDER, KOSHKONG

There's a creek runs through their medder And it runs up to their slough, Its ther darndest place for shoot'n That a feller ever knew. You take it in October When ther rice is thick and tall, With ther foliage robed in crimson, And ther leaves begin to fall.

There's ther spiked-tail and ther widgoun, Ther green-winged teal and blue There's ther mallard duck and blue bill, All feedin' in ther slough. There's ther jack snipe on ther medder, A horn' by ther creek, There's ther yellow leg and king rail, With ther otter, r. t and mink.

Ther cattle on ther medder Have made some crooked tracks. Write ther boys come up from shootin' With ther ducks piled on ther backs, And ther laugh and tell each other What they've killed upon ther trip And ther feel so awful jolly That they stop and "take a nip."

Why, that's a hunter's paradise, That place is in ther fall; You can always find some kind of duck And sometimes find them all. For ther lake is full of canvas-back, And ther red-head comes ther too With ther spoon-bill, goose and ruddy duck, You can always kill a few.

To ther doctors, to ther lawyers, To ther judge and jury man, To ther landlord, to ther tenant, To ther merchant, to ther banker, To ther one who seeks in vain For a rest from business troubles And a place to cool ther brain, Go to Bingham's in ther mornin', At ther noon time, or ther night, In ther spring time or ther fall time, For any time is right.

OUT OF BOUNDS.

MANY LEAVE FOR THE DELLS.

Four Coaches Were Required To Carry the Janesville Excursionists.

Engine 240 on the St. Paul road puffed into the yards this morning with seven well filled cars from Rockford and Beloit, bound for the Dells. Conductor Charles Mooney and Engineer Thomas Fox, both of this city, were in charge and expected to reach Kilbourn City at 10:55. Ticket Agent Samuels was on the alert early this morning, and sold so many tickets that four extra coaches had to be attached to the special to accommodate the Janesville crowd.

"How much for a thirty-five pound girl?" asked a local business man, while the rush for tickets was at its height.

"This isn't a meat market, is it?" gasped an old lady who heard the remark.

Several Rockford boys banked on half an hour's delay here and went across the street to moisten their hair. They didn't realize that Agent Hinrichs had four cars ready on a side track all the morning, and when the special pulled in a switch engine did the rest. The Rockford boys came back find the train gone.

A Janesville party of excursionists mourned for a different cause. They left two big baskets of lunch under a seat in the depot waiting room.

Narcoti-Cure

The Only Remedy in the World that Refunds Purchase Price if it Fails to Cure the Tobacco Habit in 4 to 10 Days is

It Cures while You Continue the Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure.

A lifetime's suffering ended for \$5.

Why smoke and spit your life away? Who suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way

Drive the nicotine from your system by use of this wonderful remedy.

Narcoti cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good.

Then throw away tobacco forever

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures.

Send for book of prominent testimonials like the following:

The Narcoti Chemical Co., Springfield, Mass.

Gentlemen:—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully

CHAS. I. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass., late Inspector of Public Buildings for Massachusetts, says:

BOWLER'S REIGN.

Comptroller Bowler still maintains that congress has no power to grant a sugar bounty and that he cannot allow the money to be paid over to the sugar producers who have filed the proper claims for it. He consents, however, to hear arguments upon the question and thus there is presented the extraordinary spectacle of a subordinate treasury official, whose functions are purely ministerial, sitting in judgment on the constitutionality of a law, and refusing to carry out its provisions because it does not meet his approval. From whence he gets his authority for this sort of thing it is impossible to say. The general understanding has always been that the supreme court alone is clothed with the power to determine constitutional issues; but Comptroller Bowler evidently believes himself to be a new branch of the government, superior to all others, and free to do as he pleases in the performance of his duties.

9,600,000 FARMERS.

It is shown by an analysis of census figures that more than half the men in twenty-eight of the forty-nine states and territories are engaged in agriculture, and that farming is the leading pursuit in all of them except New Hampshire, Massachusetts, Rhode Island, Connecticut and New Jersey, where manufacturing and mechanical arts take the lead.

Few people follow an occupation long unless it is profitable.

There are in the United States 9,600,000 men engaged in agriculture to 9,220,000 in other forms of business. The steady growth of this country is sufficient proof that intelligent farming pays.

Another report from the secretary of the treasury showing that a deficit is quite as desirable as a surplus is due in a few days. The importation of shoddy has increased over 100 per cent in the last seven months. A full explanation of what this shoddy is and what becomes of it would be of interest to the American people. It was the republican policy to shut out the stuff as belonging to the Peter Funk and cholera microbe department of trade.

The California cotton mills in San Francisco have paid out \$100,000,000 in wages but are unable to make any money for their owners. The latter are considering a proposition to move the mills to Japan, where they can do well. This is one of the first effects of a competition which it is supposed this country must face in a few years. The Japanese furnish labor at eighteen cents a day.

Why don't those people who say that silver controls the price of wheat come to the front? Silver has been about the same while wheat has taken a jump to 80 cents, down to 60 cents and up again to 70. Anybody knows that if the crop were short this year the price would quickly go to \$1 per bushel or more, and that, regardless whether silver brings 66 cents per ounce or 25.

F. M. Marzluff insists that the city can afford to shut down its light at 11 o'clock and give factories the benefit of the water. Shops along the race have been crippled seriously, and a fair idea of Fox river conditions may be had here before long unless rain comes.

One of the banks in a western city is very liberal with its stock of silver dollars, scattering them through the city through every monthly pay roll. The silver dollars are the promptest to get into the hands of the bank as deposits of any money they handle.

There is much encouragement in the fact that the postal returns from twenty cities during the largest busi-

ness show a seven per cent. increase for July. This is considered one of the best pointers on the trade currents of the country.

The Midwinter Fair at San Francisco was a memorable event for the city and left profit enough to erect a public museum in one of the parks.

Chief Acheson should be commended for clearing the sidewalks. Janesville business streets are marred by narrow walks, and obstructions are doubly objectionable on that account.

Rock county will have no Dunning scandal as long as Superintendent Aller is in charge of the asylum.

Terrible Ulcers Cured On Three Persons.

M. A. Garden, a druggist out at Belmont, this state, has good reasons for rejoicing and does so in the following language:

"My thanks are due Mr. I. D. Burdick, of Janesville, who first gave me assurance of relief from a terrible ulcer on my shin; there was also three small ulcers above this sore and just below the knee cap, and seemed to be taking hold and breaking down my whole system. It did not seem possible to obtain relief from any treatment resorted to. When Burdick saw it, he said at once Septicide, a preparation prepared in Milwaukee, will heal that in a surprisingly short time. I procured some of the Septicide, and began applying it to the sores, and taking it in tablespoonful doses every two hours; the relieving and healing process after twenty-four hours seemed little short of a miracle. In a remarkable short time the sores were healed up and my general health much improved by the action of Septicide on the blood.

I sent a bottle to a young man who had an ugly ulcer on his leg; in one week he was in my store nearly cured. I also sent one to a young lady in Illinois, who had been confined to her bed with a running sore for several years. The friend who took her the Septicide in two weeks reported her the happiest woman on earth, going about doing her work as usual. Wish I could be heard by everybody having ulcers or old sores on their bodies, advising them to use Septicide." Sold by Prentice & Evenson, opposite post office.

Women at Billiards.

A quarter of a century ago few ladies indulged in billiard playing. The billiard room was reserved for the men of the house and for the male guests for whom hunting was wearisome and the drawing-room unattractive. But to-day there are many country houses, both in this country and abroad, where the ladies themselves have asserted their rights to billiards and a billiard-room for themselves. In France, where billiards is almost universally played, the game has become extremely popular in higher feminine circles. The princesses of the English royal family have contributed much to popularizing the game throughout related courts in Germany. Among the crowned heads who play billiards may be mentioned the Dowager Czarevna, who is very skillful at the game. Queen Margherita of Italy is very fond of retiring with her court ladies to her billiard-

room, relieving the exercise of the game has a beneficial effect in retarding her tendency to stoutness. Princess Leopold of Bavaria, the daughter of the Austrian imperial pair, is reported to be a very graceful player, and in her Munich palace she and her children have many interesting tournaments in the afternoon hours. The queen Regent of Spain was, in her girlish days, a splendid handler of the cue.

The Rank Tax.

In the Danish budget a curious tax, entitled the "rank tax," is calculated to produce \$3,261. Social rank is highly prized in Denmark, and everyone of any consideration has his clearly defined position in the social hierarchy.

A REMARKABLE CURE.

A CASE OF PILES OF EIGHTEEN YEARS STANDING.

Cured by the Pyramid Pile Cure.

There are plenty of pile cures which give relief and sometimes cure a mild case of piles, but there is only one which can be depended upon with certainty to cure obstinate, long standing cases, and that is the Pyramid Pile Cure.

Endorsements and testimonials are received daily from men and women whose integrity and reliability are above question and in this connection a letter received from the Rev. Jas. H. Westbrook, of Bowne, Mich., may be of interest to piles sufferers who have sought in vain for a cure. He says:

I have used the Pyramid Pile Cure and I know that it is all that is claimed for it. I had been troubled with piles more or less for about eighteen years and I had tried other remedies, but the piles grew worse until about ten months ago I used the Pyramid Pile Cure. It gave almost instant relief and I have been free from piles ever since. Rev. Jas. H. Westbrook.

The remedy seems to act equally well in every form of piles, blind, bleeding, protruding or itching. It stops all pain almost immediately, allays irritation and removes constipation, and anyone who has suffered the annoyance and pain of a rectal trouble will appreciate the excellent results which invariably follow the first application of the Pyramid.

The Pyramid Pile Cure is prepared by the Pyramid Drug Co. of Albion, Mich., and for sale by druggists everywhere.

Two sizes, 50 Cents and \$1. Sold by all druggists.

GROCER'S PICNIC—Any groceries you want next Tuesday must be bought early. The grocers of the city feel the need of a picnic and Tuesday is their time. All the stores will close, delivery wagons will be housed and the only reminders of trade permitted will be a vast array of canned chicken, bottled olives, ginger snaps and other picnic requisites. Any man who attempts to use up old stock, moreover, will have to swim home. Mayflower Park and Crystal Springs have been hired an orchestra secured and a contract made with the signal service for twelve hours of ice cream weather. It is believed that every store in town will close, although one or two names are still lacking on the paper that Alderman Winslow is circulating. Boats will run every hour commencing at 10:30 and both boats will be chartered. If possible dry goods men will be induced to join in the picnic. The hour for closing stores will be 12 o'clock.

High grade shoes. It don't pay to buy any other. You have tried the experiment of buying something because somebody said it was half price or factory cost and you recollect the unpleasant feeling when you found that you had really paid full price for an inferior article. The house was elaborately decorated. Cut flowers hid the mantel-piece in the parlor where the guests were received, a second parlor being banked with golden rod and palms. The decorations of the supper room were smilax and sweet peas, and wax tapers diffused a soft light. Refreshments were served by a bevy of charming young ladies.

ALL MILLS SHUT UP FOR LACK OF WATER

"FIRST WATER" USERS ARE
NOW UNDER THE BAN.

Stage Got Three Inches Below the Bolt and Then All Hands Had to Quit Or Risk a Fine For Contempt of Court—Letter From F. M. Marzluff.

Not a wheel turned on the upper water power today. With the mills at Monterey running it is only a question of time when small boys can wade across the river below the upper dam without dampening their ankles.

All power was shut off at 12 o'clock last night, and mills that used "night water" had to quit. The electric lights had to be extinguished and the Recorder had to go to press before that time. Today the mills were silent, and silent they must stay until the "water gets up to the bolt." The "bolt" is the mark set on the west abutment of the dam and by it the water is apportioned. In the discussion of the case of the cotton mills et al vs. M. C. Smith et al Judge Sloan made the apportionment and his ruling was affirmed by the supreme court. This decree allowed the owners of "first water" to use it until it reached a point three inches below the bolt, after which it would be contempt of court to draw off any more. The latter stage was reached last night and then Superintendent Edwards put on the brakes.

Means Great Loss. The low water means a considerable loss for the Janesville manufacturers, and the sum will run up into the thousands of dollars. One mill man said they had ordered enough ahead to keep the machinery whirling for two months, but they could not fill them owing to the lack of power. "There are only two things for us to do," he said. "We must either look up the mill and lose our trade or put in steam. We cannot afford to stop our machinery, yet we must do so under the present condition. If the Monterey mills keep on running, the whole river below the upper dam will soon be dry. It would take a great deal of rain to bring the river up to a good stage, but until then we have all got to suffer. The river has not been as low in a great many years. Even the 'first water' is now shut off, so what show do the rest of us have who cannot use water at all until after 'first water' can be used?"

How It Is Divided.

There are 13,532 inches of water in Rock river under a four-foot head, according to the measurements at the bolt made under a seven-foot head. The water is apportioned as follows:

SAVE BY SHUTTING OFF LIGHTS

Water Power User Suggests That the Aldermen Help Local Factories.

EDITOR GAZETTE: It is no news to the general public of Janesville that all concerns doing business with our water power have been more or less handicapped for the last two months, and it occurred to me that the alderman could help us, if it was thought prudent and safe. My idea was for the city lights to be shut off at 11:00 o'clock and allow water to accumulate until morning. This would give us a better power, thus enabling us to keep our help employed. For a week or more we have been obliged to lay off a portion of our help, cutting down our pay roll and today one hundred people from our factory alone are idle.

I merely offer this as a suggestion, not saying it would be practical, but I can see no reason why a move of this kind would not do more good than harm. F. M. MARZLUFF & Co.

WHEEL WRECKED BY A BUGGY Cyclers Dash Down Milwaukee Street and Come To Grief.

A Chicago young lady who is visiting here is mourning the loss of her wheel today. She loaned it to a friend, and he collided with a buggy while coasting down East Milwaukee street, breaking the machine in a dozen places. A doctor and a repair shop were both benefited by the occurrence.

LOST GIRL IS FOUND AT MUSKEGON, MICH

MISS JOSIE O'NEIL LOCATED
AFTER LONG SEARCH.

She Disappeared From Her Home In This City Some Time Ago And All Efforts to Find Her Had Been Unsuccessful—Writes That She Will Be Home Tonight.

Miss Josie O'Neil, who disappeared from her home in Janesville some months ago, has at last been found. She is at Muskegon, Michigan, penniless and weary of life away from the parental roof. Miss O'Neil, who is about fifteen years old, is the daughter of Mr. and Mrs. J. M. O'Neil, her father being a baker in the employ of the Colvin Baking Company. At the time of her disappearance the family lived on North Main street, and her sudden departure caused considerable excitement. She did not return home one night, and has not been seen since. All efforts were made to find her but without success and at last the search was given up. The parents were joyously surprised when they received a letter from the Michigan town that she was well and would be home tonight. She went from here to Chicago and from there strayed up to Michigan, finally deciding to return home.

KENOSHA NOT TO BE BONDED.

Water Works Bought For \$137,000 in Annual Installments of \$10,000.

Janesville visitors were much impressed by the Kenosha water works. W. H. Wheeler & Co. turned the works over to the city for \$137,000. Kenosha is not in shape to issue bonds but is to pay yearly installments of \$10,000.

The system includes a pair of Cincinnati engines, capacity 4,000,000 gallons; thirteen miles of main; 130 hydrants, and 5,000 feet of intake pipe, this last item costing about \$26,000.

Edgerton, Oconomowoc and Fort Atkinson sent delegations to get data for building systems at home. Watertown, Berlin, Rockford and Beloit were also well represented. Coming home the visitors adopted resolutions praising the Kenosha water works highly.

Excursion to the Dells.
The last excursion of the season to the beautiful Dells of Wisconsin; an opportunity to visit the marvellous Dells of the Wisconsin is offered for Thursday, August 15. It seems hardly necessary to repeat what has been said in praise of this famous resort. However, we will say that its scenery is unequalled in the western country, and none should miss a chance to see it. This excursion will be limited to 400 people, and includes only Rockford, Beloit and Janesville. The fare for the round trip, including the steamer trip, is only \$2. Train will leave the Chicago, Milwaukee & St. Paul railway depot, at 7:30 a. m. It will leave Kilbourn at 6:30 p. m. or home. Time will be allowed for supper at Kilbourn from 5:30 p. m. to 6:30 p. m. Bulgarians Commit Atrocities.
Constantinople, Aug. 14.—The wall of Salonica telegraphs that a Bulgarian band, numbering about 1,000 men, is said to have attacked the village of Janakli, in the district of Kirdjali, and burned 290 houses. The Bulgarians are also said to have killed twenty-five of the inhabitants of Janakli. The wall of Adrianople has sent a similar dispatch, but he thinks that the accounts of the affair are probably exaggerated.

Mueller is still in jail, having been unable to furnish a bondsman.

When They're Rebellious and Shirk Duty.
Don't attempt to overcome inactivity of the kidneys with fiery, unmedicated alcoholic stimulants. Use instead Hostetter's Stomach Bitters, in which the spirituous basis only serves as a vehicle for the superb botanical medicinal principles blended with and held in perfect solution by it. An incomparable remedy is the Bitters also for constipation, dyspepsia, liver complaint, rheumatism, malaria and nervousness. Promote appetite and sleep with it.

You Don't Have to Swear Off.
says the St. Louis Journal of Agriculture in an editorial about No-To-Bac the famous tobacco habit cure. "We know of many cases cured by No-To-Bac, one, a prominent St. Louis architect, smoked and chewed for twenty years; two boxes cured him so that even the smell of tobacco makes him sick." No-To-Bac sold and guaranteed by E. B. Helmsstreet. No cure to pay. Book free. Sterling Remedy Co., New York or Chicago.

Mr. A. H. Cranshaw, of No. 123 Kerr St., Memphis, Tenn., writes that his wife had cancer which had eaten two large holes in her breast, and which the best physicians of the surrounding country treated, and pronounced incurable. Her grandmother and aunt had died of

Cancer
and when told this, the most eminent specialists of New York, under whose treatment she was placed, declared her case was hopeless. All treatment having failed, she was given up to die. S. S.
